S. C. 71, and as extended by Public Law 602, 77th Congress, approved June 10, 1942 (56 Stat. 351), and the rules and regulations promulgated thereunder.

(3) "Designated area" means the counties of Hood River, Clackamas, Marion, Linn, Lane, Douglas, and Jackson, in the State of Oregon, and all that part of the State of Oregon lying west of these counties.

(4) "Person" means any individual, partnership, association, business trust, corporation, or any organized group of persons whether incorporated or not.

(5) "Director" means the Director of Marketing Services, United States Department of Agriculture.

(b) *Shipment of lambs into designated area.* No person shall ship lambs from any point outside of the designated area to any point within the designated area except to a federally-inspected slaughterer, and no person other than a federally-inspected slaughterer located in the designated area may accept delivery of lambs shipped from any point outside of the designated area.

(c) *Records and reports.* The Director shall be entitled to obtain such information from and require such reports and the keeping of such records by, any person, as may be necessary or appropriate, in his discretion, to the enforcement or administration of the provisions of this order, subject to the approval of the Bureau of the Budget in accordance with the Federal Reports Act of 1942.

(d) *Audits and inspections.* The Director shall be entitled to make such audits or inspections of the books, records, and other writings, premises, livestock, meat, meat products or animal fats of any person, and to make such investigations as may be necessary or appropriate, in his discretion, to the enforcement or administration of the provisions of this order.

(e) *Petition for relief from hardship.* Any person affected by this order who considers that compliance herewith would work an exceptional or unreasonable hardship on him may file a petition for relief with the Order Administrator. Petitions shall be in writing and shall set forth all pertinent facts and the nature of the relief sought. The Order Administrator may take any action with reference to such petition which is consistent with the authority delegated to him by the Director. If the petitioner is dissatisfied with the action taken by the Order Administrator, he may, by a request addressed to the Order Administrator, obtain a review of such action by the Director. After said review, the Director may take such action as he deems appropriate, which action shall be final.

(f) *Violations.* Any person who violates any provision of this order may in accordance with the applicable procedure, be prohibited from receiving, making any deliveries of, or using livestock, meat, meat products, or animal fats. Any person who wilfully violates any provision of this order is guilty of a crime and may be prosecuted under any and all applicable laws. Civil action may also be instituted to enforce any liability or duty created by or to enjoin any violation of, any provision of this order.

(g) *Delegation of authority.* The administration of this order and the powers vested in the Secretary of Agriculture, insofar as such powers relate to the administration of this order, are hereby delegated to the Director. The Director is authorized to redelegate to any employee of the United States Department of Agriculture any or all of the authority vested in him by this order.

(h) *Communications.* All reports required to be filed hereunder and all communications concerning this order shall, unless otherwise provided, be addressed to the Order Administrator, War Food Order No. 140, Livestock and Meats Branch, Office of Marketing Services, Department of Agriculture, Washington 25, D. C.

(2) More than 25% of the sales or operating revenue of the registrant and its subsidiaries during the most recently ended fiscal year were derived from one or more war contracts. For the purposes of this rule the term "war contracts" shall include (i) any prime contract with the United States Government or any of its allies connected with or related to the prosecution of the war, and (ii) any subcontract or supply order arising out of any such prime contract; *Provided*, That if the nature of the registrant's business is such that it is otherwise impracticable without unreasonable effort and expense to determine the amount of business derived from such contracts, the registrant may rely upon determinations or estimates made for the purposes of the Federal Renegotiation Act and in such case this rule shall be applicable if more than 25% of the sales or operating revenues of the registrant were either (a) subject to renegotiation or (b) were specifically exempted from renegotiation

by subsection (i) of the Federal Renegotiation Act.

**PART 249—FORMS, SECURITIES EXCHANGE**  
**ACT OF 1934**

**AMENDMENT TO FORM 8-K FOR CURRENT RE-**  
**PORTS AND AMENDMENTS TO INSTRUCTIONS**  
**FOR THE USE THEREOF**

The Securities and Exchange Commission, deeming it necessary and appropriate in the public interest and for the protection of investors and necessary for the execution of the functions vested in it so to do, pursuant to authority conferred upon it by the Securities Exchange Act of 1934, as amended, particularly sections 13 and 23 (a) thereof, hereby takes the following action:

I. Paragraph 1 of the instructions to Form 8-K is amended to read as follows:

1. Rule governing the use of Form 8-K. This form is to be used for the current reports required by Rules X-13A-6 and X-13A-6A.

II. The instructions to Form 8-K are amended by inserting immediately after paragraph 2 the following new paragraph 2A:

2A. Rule X-13A-6a provides as follows:

(a) The provisions of this rule shall be applicable only to issuers of securities as to which both the following conditions exist:

(1) The issuer files annual reports on Form 10-K or 11-K, or includes a report on one of such forms as Part II of Form 16-K and

(2) More than 25% of the sales or operating revenues of the registrant and its subsidiaries during the most recently ended fiscal year were derived from one or more war contracts. For the purposes of this rule the term "war contracts" shall include (i) any prime contract with the United States Government or any of its allies connected with or related to the prosecution of the war, and (ii) any subcontract or supply order arising out of any such prime contract; *Provided*, That if the nature of the registrant's business is such that it is otherwise im-

practicable without unreasonable effort and expense to determine the amount of business derived from such contracts, the registrant may rely upon determinations or estimates made for the purposes of the Federal Renegotiation Act and in such cases this rule shall be applicable if more than 25% of the sales or operating revenues of the registrant were either (a) subject to renegotiation or (b) were specifically exempted from renegotiation by subsection (i) of the Federal Renegotiation Act.

(b) Each company subject to this rule shall file, for each quarter of each fiscal year beginning after June 30, 1944, a report on Form 8-K containing the information called for by Item 11 of such form.

(c) Reports required by this rule shall be filed not more than 30 days after the close of the fiscal quarter for which the report is filed or not more than 30 days after the effective date of this rule, whichever is later.

III. Form 8-K is amended by adding under the caption "Items of Information" the following new paragraph 11:

11. If the report is being filed pursuant to the provisions of Rule X-13A-6A, furnish the following information:

Fiscal quarter ending \_\_\_\_\_

(a) Total dollar amount of sales or operating revenues during the period.

(b) Total dollar amount of sales pursuant to war contracts during the period.

(c) Dollar amount of unfilled war contracts as at the beginning of the period.

(d) Dollar amount of unfilled war contracts at the close of the period.

(1) If disclosure of the information called for by this item would for any reason be in contravention of the Code of Wartime Practices, or the security regulations of the procurement agency involved, the report shall be filed under confidential cover in accordance with the provisions of Rule X-24B-2 (a) and (b) (1), and will be made public only with the approval of the procurement agency involved.

(2) The first report filed pursuant to Rule X-13A-6A may, if desired, cover two or more fiscal quarters for which reports are required. In such case, the information called for by subparagraphs (a) and (b) may cover two or more quarters as appropriate and the information called for by subparagraphs (c) and (d) may be as of the beginning and end, respectively, of the period covered by the report. The period covered by the report shall be clearly indicated.

(3) The required information shall be given as to the registrant, or, if consolidated financial statements are included in the registrant's annual report, for the registrant and its consolidated subsidiaries; *Provided, however*, That information as to foreign subsidiaries may be omitted if an indication of such omission is given. In addition, the information shall be given as to any unconsolidated subsidiary or group of subsidiaries for which separate or group statements are required to be filed in the annual report.

(4) In the case of cost-plus-a-fixed-fee contracts involving the manufacture

and delivery of products, the aggregate amount of presently reimbursable costs and fees should be included in sales; there should also be reflected in unfilled orders that portion of total estimated reimbursable costs and fees applicable to the uncompleted portion of CPFF contracts which has not been included in sales.

(5) The amount of unfilled orders should be computed without regard to "open-end", "requirements" or similar contracts (whether fixed price or cost-plus-fixed-fee). The exclusion of such contracts in computing unfilled orders should, however, be indicated. No information need be given as to unfilled orders if a major portion of all sales pursuant to war contracts is comprised of sales pursuant to "open-end", "requirements" or similar contracts or of sales of articles which in general are produced prior to receipt of orders therefor. In such case, however, an appropriate explanation of the circumstances shall be given.

(6) If it is impracticable, in view of the nature of the business done, to segregate unfilled orders as between war contracts and other contracts, information may be given as to all unfilled orders without segregation. Information as to sales under war contracts during the period of report may be given on an estimated basis. An appropriate explanation of the circumstances shall, however, be given by means of footnote or otherwise.

Effective July 23, 1945.

By the Commission.

Secretary.

#### PART 627—APPEAL TO BOARD OF APPEAL

##### MISCELLANEOUS AMENDMENTS

Pursuant to authority contained in the Selective Training and Service Act of 1940, as amended, Selective Service regulations, second edition, are hereby amended in the following respect:

1. Amend § 627.1 by changing the title to read as follows:

§ 627.1 *Appeal by Director and State Director.* \* \* \*

2. Amend paragraphs (a) and (c) and add paragraph (d) of § 627.2 to read as follows:

§ 627.2 *Appeal by registrant and others.* (a) The registrant, any person who claims to be a dependent of a registrant, any person who has filed written evidence of the occupational status of a registrant, or the government appeal agent may appeal to a board of appeal from any classification of a registrant by the local board except that no such person may appeal from the determination of the registrant's physical or mental condition by the examination physician, the examining station of the armed forces, or the local board.

(c) The registrant, any person who claims to be a dependent of the registrant, or any person who has filed written evidence of the occupational status of the registrant may take an appeal authorized under paragraph (a) above at any time within the following periods:

(1) Within 10 days after the date the local board mails to the registrant a Notice of Classification (Form 57); or

(2) Within 30 days after the date the local board mails to the registrant a Notice of Classification (Form 57), if, on that date, it appears that the registrant is located in one and the local board which classified the registrant is located in another of the following: the continental United States, the Territory of Alaska, the Territory of Hawaii, Puerto Rico, or the Virgin Islands of the United States; or

Unless the local board thereafter permits an appeal, the right of such persons to appeal shall expire at the end of the period provided for in paragraph (c) of this section. If an extension of time to appeal is granted by the local board, a record thereof shall be entered on the Selective Service Questionnaire (Form 40) under the heading "Minutes of Other Actions."

3. Amend paragraph (a) of § 627.14 to read as follows:

manner and under the conditions provided for in this part.

§ 643.2 *Definition of selective service violator.* The term "selective service violator," when used in this part, shall mean and be limited to a person described in § 643.1 who is required by law to be registered and is an inmate of a penal or correctional institution having a special panel local board.

§ 643.3 *Parole of persons required to register.* Upon the recommendation of the special panel local board in the institution in which such person is confined made in conformity with this part of this part, or upon the recommendation of the Director of Selective Service, the parole provided for in § 643.1 may be granted by the Attorney General to any person required to register under the provisions of the Selective Training and Service Act of 1940, as amended, and any proclamation of the President thereunder, if in the judgment of the Attorney General it is compatible with the public interest and the enforcement of the Selective Training and Service Act of 1940, as amended. § 643.5 *Function of special panel local boards in recommending paroles of selective service violators.* Special panel local boards in Federal penal or correctional institutions, in the exercise of their function of considering and recommending selective service violators for parole, shall classify such registrants in

accordance with § 643.6. Such action, being a part of the parole function, shall not constitute a classification subject to appeal, but may be reviewed by the Director of Selective Service under the provisions of this part.

§ 643.6 *Classification of selective service violators before recommending parole.* (a) Each selective service violator age 18 through 37 who has served 60 days or more of his sentence after commitment shall be classified by the special panel local board in the following manner:

(3) If it determines that the registrant should be considered for parole for induction into the land or naval forces of the United States for noncombatant service, he shall be placed in Class I-A-O.

(c) If he is in one of the classes listed in § 662.4, to sign a request for assignment to special service established by the Attorney General.

§ 643.8 *Review by Director and reclassification in certain cases.* Whenever a selective service violator, after being afforded an opportunity under § 643.7 to volunteer for induction if classified in Class I-A or Class I-A-O, or to request assignment if classified in Class

IV-E, declines so to do but at that time informs a special panel local board that he will apply for a type of parole which does not correspond to his classification, the registrant's file shall be forwarded for review to the Director of Selective Service through the State Director of Selective Service having jurisdiction over the special panel local board. If the Director of Selective Service is of the opinion that the registrant should be considered for a type of parole which does not correspond to his classifications, he will request the special panel local board to reopen the registrant's classification and to place the registrant into a class specified by him. Upon receipt of such a request from the Director of Selective Service a special panel local board shall reopen the registrant's classification and shall place him in the class specified by the Director of Selective Service, and shall then afford the registrant another opportunity to volunteer for induction or to request assignment for the type of service for which he is classified.

§ 643.9 *Classification of selective service violator who declines to volunteer for service.* The special panel local board shall reopen the classification of a selective violator and place him in the first class listed in § 662.4 for which he is eligible whenever:

(2) After his case has been reviewed by the Director of Selective Service under § 643.7, the registrant declines to volunteer for induction or to request assignment for the type of service for which he is classified.

§ 643.10 *Physical examination of selective service violators who volunteer for service.* Each selective service violator who has been placed in Class I-A, Class I-A-O, or Class IV-E and has volunteered for induction or has requested assignment for the type of service for which he has been classified, shall be given a preinduction physical examination in accordance with the procedures prescribed by the Director of Selective Service.

(b) Each selective service violator who, upon preinduction physical examination, has been found to be qualified for general military service or to be acceptable for military service, shall be recommended by the special panel local board for parole by the Attorney General for the type of service for which he has been classified.

(c) Each selective service violator who, upon preinduction physical examination, has been found to be disquali-

(d) Each selective service violator who, upon being forwarded for induction, is found to be disqualified for any military service or to be qualified for limited military service only, shall be recommended by the special panel local board for parole by the Attorney General for assignment to special service established by the Attorney General.

(e) Each selective service violator age 38 or over who has served 60 days or more of his sentence after commitment, and who has requested assignment to special service established by the Attorney General, may be recommended by the special panel local board for parole by the Attorney General for such special service.

§ 643.12 *Reconsideration of selective service violators for parole.* The special panel local board may, in its discretion, at any time reopen the classification of a selective service violator who has been classified under this part and classify him anew in accordance with the provisions of this part.

§ 643.13 *Forwarding selective service violators for induction or assignment.* When a selective service violator has been recommended for parole under the provisions of this part, and his parole has been granted by the Attorney General, such registrant shall be forwarded for induction, or assigned and forwarded for work of national importance, or assigned to special service established by the Attorney General, as the case may be, in accordance with procedures prescribed by the Director of Selective Service.

§ 643.14 *Reclassification of selective service violators forwarded for induction.* The special panel local board shall reopen the classification of a selective service violator who is forwarded for induction. If he is inducted into the land or naval forces he shall be placed in Class I-C. If he is rejected at the induction station he shall be placed in the first class listed in § 662.4 for which he is eligible.

§ 643.15 *Change of parole for person who leaves service in land or naval forces.* Any person who is paroled for service in the land or naval forces of the United States but who after induction and before completion of the service specified in the order granting the parole is discharged from such forces may then be paroled by the Attorney General, upon recommendation by the Director of Selective Service, to any special service established by the Attorney General pursuant to the Selective Training and Service Act of 1940, as amended, or may be returned to a penal or correctional institution to complete the sentence originally imposed with or without deduction for the time spent on parole as the Attorney General may determine.

§ 643.16 *Revocation of parole after assignment to work of national impor-*

*tance under civilian direction.* If in the opinion of the Director of Selective Service any person paroled for assignment to work of national importance under civilian direction fails or refuses to perform such work or service or abide by the rules of conduct established in connection therewith, the Director of Selective Service shall so notify the Attorney General, who may revoke the parole of such person and return him to the penal or correctional institution to complete the sentence originally imposed with or without deduction for the time spent on parole as the Attorney General may determine.

§ 643.17 *Terms and conditions imposed by the Attorney General.* The Attorney General shall impose such terms and conditions as he may deem proper upon any person released on parole and shall supervise the parolee to see that he abides by the terms and conditions of the parole; *Provided, however,* That such power of supervision shall be suspended while the parolee is in the active land or naval forces of the United States.

§ 643.18 *Revocation of parole by Attorney General.* The parole herein authorized may be revoked at any time in the discretion of the Attorney General or his authorized agent; *Provided, however,* That such power of revocation shall be suspended while the parolee is in the active land or naval forces of the United States. Upon revocation of the parole, the parolee shall thereupon be returned to the proper penal or correctional institution to complete the sentence originally imposed with or without deduction for the time spent on parole as the Attorney General may determine, or until reparole.

§ 643.19 *Application of general parole laws.* Nothing in this part shall be construed as limiting or restricting the application of the act entitled "An act to parole United States prisoners, and for other purposes," approved June 25, 1910 (36 Stat. 819), as amended.

The foregoing amendments to the Selective Service regulations shall be effective within the Continental United States immediately upon the filing hereof with the Division of the Federal Register and shall be effective outside the Continental limits of the United States on the 30th day after the date of filing hereof with the Division of the Federal Register.

Administrative Order 26, Dec. 5, 1942, 7 F.R. 10512.

§ 662.1 *Special panel local boards.* The Director of Selective Service may establish a panel of any local board which has jurisdiction over the area in which any penal or correctional institution is located. Such panel shall be known as a special panel local board and with respect to the persons confined in such penal or correctional institution shall have the same rights, duties, and powers as any other local board except as otherwise provided in this part.

§ 662.2 *Regulations governing registrants in penal or correctional institutions.* Local boards and special panel local boards, as to the registrants referred to this part, shall be governed by the provisions of this part and Part 643 of this chapter and such other provisions of this part as are not in conflict therewith.

§ 662.3 *Classification of registrants before forwarding records.* Whenever a registrant's own local board forwards his selective service records to a special panel local board, the registrant's own local board shall reopen his classification and place him in the first class listed in § 662.4 for which he is eligible.

§ 662.4 *Consideration of classes for registrants confined in penal institutions having a special panel local board.* Except when classified by a special panel local board for purposes of parole as provided in Part 643, and except when classified by a special panel local board within 90 days from the date of eligibility for release as provided in this part, a registrant confined in a penal or correctional institution having a special panel local board shall be placed in the first class listed below for which he is eligible:

- Class I-C under § 622.15.
- Class IV-E under § 622.51 (d).
- Class IV-A under § 622.41.
- Class IV-F under § 622.62.
- Class IV-F under § 622.61.

§ 662.5 *Transfer of record of registrants.* (a) When a registrant, age 18 through 44, who has been convicted of a violation of the Selective Training and Service Act of 1940, as amended, or any rules or regulations prescribed thereunder, or when any other registrant, age 18 through 37, enters an institution having a special panel local board, the clerk of such special panel local board shall immediately complete a Request for Transfer of Record (Form 64) and transmit it to the local board having jurisdiction of the address given on line 2 of his Registration Card (Form 1).

(b) When the local board having jurisdiction of the address given on line 2 of the Registration Card (Form 1) of such a registrant receives a Request for Transfer of Record (Form 64) from the special panel local board in an institution which he has entered, it shall (1) make a duplicate of the Cover Sheet (Form 53) and a copy of the Registration Card (Form 1) of such registrant; (2) forward such duplicate Cover Sheet

(Form 53) and a copy of the Registration Card (Form 1) together with all other papers pertaining to such registrant to the special panel local board at the institution which the registrant has entered; and (3) retain in its files the original Cover Sheet (Form 53), the original Registration Card (Form 1), a copy of the letter covering the transmittal of the registrant's records to the special panel local board, and the Request for Transfer of Record (Form 64).

§ 662.6 *Registration.* (a) When, at the time fixed for his registration, a person required to present himself for and submit to registration is confined in an institution having a special panel local board, he shall be immediately registered. When a person required to present himself for and submit to registration has not done so prior to the time he enters an institution having a special panel local board, he shall be immediately registered. When any such person refuses to register, any person authorized to act as registrar shall sign the person's name and indicate that he has done so by signing his own name, followed by the word "Registrar," beneath the name of such person, and the act of such registrar in so doing shall have the same force and effect as if such person had signed his name to the Registration Card (Form 1), and such person shall thereby be registered.

(b) When a person has heretofore or is hereafter registered at an institution having a special panel local board, the special panel local board shall complete a copy of his Registration Card (Form 1) and retain it in its records. The special panel local board shall then transmit the original Registration Card (Form 1) to the local board having jurisdiction over the address given on line 2 of such Registration Card (Form 1) if such local board is known; otherwise the special panel local board shall forward such Registration Card (Form 1) to its State Director of Selective Service for transmittal through channels to the proper local board. The special panel local board shall accompany the transmission of each such Registration Card (Form 1) with a letter requesting the local board having jurisdiction over the address given on line 2 of the Registration Card (Form 1) to assign to the registrant a serial and order number and to immediately advise the special panel local board of the serial and order number thus assigned.

(c) Upon being advised of the serial and order number assigned to the registrant by the local board having jurisdiction of the address given on line 2 of such registrant's Registration Card (Form 1), the special panel local board shall enter the serial and order number on its copy of such registrant's Registration Card (Form 1).

§ 662.7 *Registrars.* Any member or clerical assistant of, or any other person appointed as a registrar by a special panel local board, may perform the duty of a registrar.

§ 662.8 *Classification in general.* (a) As soon as the special panel local board receives the records of a registrant, it shall review his classification, and if he is not classified in the first class listed in § 662.4 for which he is eligible, it shall reopen his classification and so classify him. If the special panel local board classifies the registrant anew, it shall immediately notify the local board having jurisdiction of the address given on line 2 of such registrant's Registration Card (Form 1) of such classification.

(b) As soon as the special panel local board registers a registrant under the provisions of § 662.6, it shall require such registrant (1) to complete his Selective Service Questionnaire (Form 40); (2) if he claims to be a conscientious objector, to complete Special Form for Conscientious Objector (Form 47); and (3) to furnish such other information as the special panel local board may require. It shall then classify such registrant in the first class listed in § 662.4 for which he is eligible, and the special panel local board shall then advise the local board to which his original Registration Card (Form 1) was transmitted of such classification.

(c) Whenever a registrant who is an inmate of an institution having a special panel local board becomes 38 years of age, the special panel local board shall reopen his classification and place him in the first class listed in § 662.4 for which he is eligible. Unless such registrant is a selective service violator as defined in Part 643, of this chapter, all papers with reference to such registrant, except his duplicate Cover Sheet (Form 53) and the copy of his Registration Card (Form 1), shall be forwarded to the local board having jurisdiction of the address given on line 2 of his Registration Card (Form 1).

§ 662.9 *Classification of a selective service violator for purposes of parole.* A selective service violator, as defined in Part 643 of this chapter, shall be classified for purposes of parole under the provisions of such part.

§ 662.10 *Classification of registrants other than selective service violators when eligible for release within 90 days.*

(a) When a registrant age 18 through 37, other than a selective service violator, is an inmate of an institution having a special panel local board, and such registrant is, or within 90 days, will be eligible for parole, pardon, or conditional or other release, the special panel local board, if it determines to forward such registrant for consideration by the armed forces, shall reopen his classification and place him in Class I-A or Class I-A-O; or if it determines to forward such registrant for consideration for work of national importance, place him in Class IV-E; *Provided*, That any such registrant who is found to have a disqualifying physical defect which is manifest as listed in the List of Defects (Form 220) shall be placed or retained in the first class listed in § 662.4 for which he is eligible.

(b) When a registrant has been placed in Class I-A, Class I-A-O, or Class IV-E under the provisions of paragraph (a) of this section, he shall be requested to sign an Application for Voluntary Induction (Form 165) and a Request for Immediate Induction (Form 219), or to make a request for assignment to work of national importance, as the case may be, and, if he declines to do so, the special panel local board shall reopen his classification and place him in the first class listed in § 662.4 for which he is eligible.

§ 662.11 *Physical examination and consideration for parole of registrants other than selective service violators.*

(a) Whenever a registrant, other than a selective service violator, has been placed in Class I-A, Class I-A-O, or Class IV-E under the provisions of § 662.10, and has volunteered for induction or requested assignment, and is, or within 60 days, will be eligible for parole, pardon, or conditional or other release, he shall be given a preinduction physical examination in accordance with procedures prescribed by the Director of Selective Service.

(b) If upon preinduction physical examination such a registrant is found to be disqualified for any military service or to be qualified for limited military service only, his classification shall be reopened and he shall be placed in the first class listed in § 662.4 for which he is eligible.

(c) If upon preinduction physical examination such a registrant is found qualified for general military service or found acceptable for military service, his records shall be forwarded for consideration by the civil authority empowered to grant him parole, pardon, or conditional or other release.

(d) If the civil authority to which such registrant's records are forwarded under the provisions of paragraph (c) of this section declines to grant the registrant parole, pardon, or conditional or other release, the registrant's classification shall be reopened and he shall be placed in the first class listed in § 662.4 for which he is eligible.

§ 662.12 *Parole and induction or assignment of registrants other than selective service violators.* When the civil authority empowered to do so has granted a parole, pardon, or conditional or other release to a registrant whose records have been forwarded to it and has executed a Parole Authority Certificate and Recommendation (Form 604), such registrant shall be forwarded for induction, or assigned and forwarded for work of national importance, as the case may be, in accordance with procedures prescribed by the Director of Selective Service.

§ 662.13 *Classification of registrant who leaves institution.* (a) When a registrant who is an inmate of an institution having a special panel local board is inducted into the armed forces, his classification shall be reopened and he shall be classified in Class I-C. When a registrant who is an inmate of an institution having a special panel local board

is delivered for work of national importance or assigned to special service established by the Attorney General, the fact of such delivery or assignment shall be noted following his IV-E classification. In all other cases in which a registrant, except a registrant whose records have previously been forwarded under the provisions of § 662.8, leaves an institution having a special panel local board, at the time of his departure and at the time his records are transmitted to the local board having jurisdiction of the address given on line 2 of his Registration Card (Form 1), the special panel local board shall review his classification and if he is not classified in the first class listed in § 662.4 for which he is eligible, it shall reopen his classification and so classify him.

§ 662.14 *Disposition of records of registrant who leaves an institution.* (a) When a registrant leaves an institution having a special panel local board, all papers with reference to such registrant except his duplicate Cover Sheet (Form 53) and a copy of his Registration Card (Form 1) shall be forwarded to the local board having jurisdiction of the address given on line 2 of his Registration Card (Form 1) shall be forwarded to the local board having jurisdiction of the address given on line 2 of such registrant's Registration Card (Form 1).

(b) For each registrant who leaves the institution, the special panel local board shall transfer to a separate file for completed cases the duplicate Cover Sheet (Form 53), the copy of the Registration Card (Form 1), and a copy of the letter covering the transmittal of the records of such registrant to the local board having jurisdiction of the address given on line 2 of such registrant's Registration Card (Form 1).

§ 662.15 *Local board to which registrant's records are forwarded shall reclassify him.* Whenever the records of a registrant are received by the local board having jurisdiction of the address given on line 2 of his Registration Card (Form 1) from a special panel local board, either under § 662.14 for a registrant who leaves the institution, or under § 662.8 for a registrant other than a selective service violator who becomes 38 years of age, the local board to which the registrant's records are forwarded shall immediately reopen his classification and consider it anew without reference to whether his classification has or has not been previously considered by it or by any other local board.

The foregoing amendments to the Selective Service regulations shall be effective within the continental United States immediately upon the filing hereof with the Division of the Federal Register and shall be effective outside the continental limits of the United States on the 30th day after the date of filing hereof with the Division of the Federal Register.

(2) Ratings for procurement of "productive capital equipment" and machine tools or delivery of such equipment and tools to a prime contractor or subcontractor to produce material being procured by the Veterans Administration shall be reviewed and approved by the War Production Board before assignment or application by the Veterans Administration, except where the total value of the delivery or deliveries rated by a single instrument does not exceed \$500. PART 944—REGULATIONS APPLICABLE TO  
THE OPERATION OF THE PRIORITIES  
SYSTEM

[Priorities Reg. 24, as Amended July 24, 1945]

EQUIPMENT NEEDED FOR THE INITIATION,  
RESUMPTION OR EXPANSION OF CIVILIAN  
PRODUCTION OR CIVILIAN SERVICES

Section 944.45 *Priorities Regulation 24* is amended to read as follows:

§ 944.45 *Priorities Regulation 24*—(a) *What this regulation does.* (1) This regulation states the rules regarding the granting of priorities assistance for getting equipment which is needed for the initiation, resumption or expansion of civilian production or civilian services, where no construction is involved which requires authorization under L-41. The War Production Board grants priorities assistance for these purposes only under the conditions described in paragraph (c) below.

(2) This regulation permits the filing of a single application to cover any number of items of equipment needed for the same purpose. If you need equipment for war production or for production or services which are essential to the war effort, you should file under the customary procedures and not under this regulation.

(3) This regulation applies only to equipment which will be used in the United States, its territories or possessions, or in the Dominion of Canada. In the case of other exports the usual export procedures should be followed.

(b) *Definition of "priorities assistance."* As used in this regulation, "priorities assistance" includes preference ratings and also any special authorization which is required by a War Production Board order before a purchase order for an item of equipment may be placed or accepted or delivery completed.

(c) *Conditions for passing on applications for equipment.* The general policy of the War Production Board is not to grant priorities assistance for equipment required for the initiation, resumption or expansion of civilian production or services. The only exception is that priorities assistance may be as-

signed if the application shows that all of the following conditions are satisfied:

(1) There is no reasonable prospect that the items can be acquired at the times requested without a rating or special authorization. This condition will usually exist only when the items have a long manufacturing time so that unrated deliveries are difficult for the manufacturer to schedule or where unrated orders or orders not specially authorized by the War Production Board may not be accepted by the supplier under the provisions of a War Production Board order. (Explain in Block 3 of WPB-541A.)

(2) The items are only a small bottle-neck portion of the total equipment needed for the civilian production or civilian services, the remainder being on hand or available without special assistance. (Explain in Block 5 of WPB-541A.)

(3) The items are actually needed to permit production or services, either in the applicant's plant or shop or in a business dependent on him, and are not to replace or supplement existing equipment which is adequate though less efficient. (Explain in Block 6 of WPB-541A.)

(4) The items are needed by him in order to operate at the minimum rate consistent with efficient operations. (Explain in Block 4 of WPB-541A.)

(5) The product which the applicant will manufacture or the service he will render is one which is needed for the civilian economy. (Explain in Blocks 8 and 9 of WPB-541A.)

(6) The requested delivery date is such that the applicant's initiation, resumption or expansion of presently permitted production or services will be materially delayed by failure to receive the items on the requested date. (Explain in Block 4 of WPB-541A.)

(d) *Preparation and filing of applications.* (1) All applications for equipment filed under this regulation must be made on Form WPB-541A (filed with Form WPB-541). The application should be filed with the War Production Board field office nearest the plant or shop in which the equipment will be used. All equipment for which a rating is requested must be listed. No ratings will be given for equipment which is not listed. If construction which requires authorization under L-41 is involved (see especially paragraph (e) (20) of L-41 which gives an exemption for the installation of equipment obtained on a special form), the request for an authorization should be made on Form WPB-617, in accordance with Direction 5 to Conservation Order L-41.

(2) A separate statement regarding conditions listed in paragraph (c) must be given in the specified blocks of the form with respect to each class of equipment for which priorities assistance is required. The designation "PR-24" must be written at the top of the application.

(3) If you need priorities assistance for any Y products under Order M-293, or for any of the equipment listed below, you must list the equipment on your WPB-541A application and you must also

file (along with the WPB-541A) the appropriate separate form:

Machinery or equipment	Govern- ing order	Separate WPB form
Chemical processing equipment and other machinery covered by M-293, Table 15.	M-293...	1319
Construction machinery listed on list 2 of L-192.	L-192...	1319
Laboratory instruments on list A of L-144 (not industrial equipment).	L-144...	1319
Liquefied petroleum gas equipment.	L-86....	809
Rubber processing equipment....	L-143-a...	1319
Textile machinery on list A of L-215.	L-215...	1319
Woodworking machinery (class I).	L-311...	3131

(4) Do not fill out Block 2 of WPB-541A. Direction 15 to CMP Regulation 5 and other preference rating orders give priorities assistance for installation materials under certain circumstances.

(e) *Certifications.* Ratings given under this regulation on Form WPB-541-WPB-541A may be applied or extended by using the standard certification in Priorities Regulation 7 but the following statement must be added: "This rating assigned pursuant to Priorities Regulation 24." Orders bearing this certification, except orders for items covered by paragraph (d) (3), may be accepted and filled in accordance with Priorities Regulation 1 regardless of any other War Production Board order or regulation requiring that a special form be used to give priorities assistance for the item.

#### PART 1010—SUSPENSION ORDERS

[Suspension Order S-850]

HENRY H. FRENCH, SR.

Henry H. French, Sr. of Newberg, Oregon, in October of 1944 began construction of a house and garage at Third and Blaine Streets, in Newberg, Oregon,

without authorization from the War Production Board. The estimated cost of this construction was in excess of the limits permitted by Conservation Order L-41, and said construction was in violation of the order. Said construction was completed at an actual construction cost of \$5,627.71. In January or February of 1945 he commenced construction of a second house at 507 Wynooskie Street, Newberg, Oregon, at an estimated cost of at least \$4,500.00, without authorization from the War Production Board, and in violation of Conservation Order L-41. Such construction was stopped prior to completion, and after expenditure therein of \$1,229.93. Respondent was aware of War Production Board restrictions on construction, and his aforesaid violations of Conservation Order L-41 were wilful.

These violations of Conservation Order L-41 have diverted critical materials to uses not authorized by the War Production Board. In view of the foregoing, it is hereby ordered, that:

§ 1010.850 *Suspension Order No. S-850.* (a) Neither Henry H. French, Sr., his successors or assigns, nor any other person, shall do any construction on the premises at 507 Wynooskie Street, Newberg, Oregon, including putting up or altering the structure, unless hereafter specifically authorized in writing by the War Production Board.

(b) Henry H. French, Sr. shall not for three months from the effective date of this order apply or extend any preference ratings or use any CMP allotment symbols, regardless of the delivery date named in any purchase order to which such ratings may be applied or extended or on which CMP allotment symbols are used.

(c) The restrictions and prohibitions contained herein shall apply to Henry H. French, Sr., his successors and assigns, or persons acting on his behalf. Prohibitions against the taking of any action include the taking indirectly as well as directly of any such action.

(d) Nothing contained in this order shall be deemed to relieve Henry H. French, Sr., his successors or assigns, from any restriction, prohibition or provision contained in any other order or regulation of the War Production Board, except insofar as the same may be inconsistent with the provisions hereof.

(e) This order shall take effect on July 24, 1945.

Issued this 14th day of July 1945.

#### PART 1010—SUSPENSION ORDERS

[Suspension Order S-851]

ZINSMASER BAKING CO.

Zinsmaster Baking Company, respondent herein, is comprised of, among others, three corporations named respectively:

Zinsmaster Baking Company, Minneapolis, Minn.

Zinsmaster Baking Company, St. Paul, Minn.  
Zinsmaster HOL-RY Company, Duluth, Minn.

The three corporations have common ownership and management and operate as though they were but one unit with three branches or plants. During the second quarter of 1944 and in succeeding quarters, respondent's companies used fibre shipping containers in total amounts in excess of permitted quotas as follows:

Zinsmaster Baking Company, Minneapolis, Minn., 9,581 lbs., 56,175 sq. ft.

Zinsmaster Baking Company, St. Paul, Minn., 27,930 lbs., 177,474 sq. ft.

Zinsmaster HOL-RY Company, Duluth, Minn., 31,365 lbs., 169,593 sq. ft.

Respondent thus violated Order L-317, and its violations have diverted critical materials to uses not authorized by the War Production Board.

It appears from representations made by respondent's agent that the three companies will have used during the second quarter of 1945, an amount which is less than their allowable quota in pounds and square feet. This amount will be equal to one-third of the excesses of permitted quotas of fibre shipping containers used by them in the second and succeeding quarters of 1944. In view of the foregoing, it is hereby ordered, that:

§ 1010.851 *Suspension Order No. S-851.* (a) Respondent shall reduce the use by Zinsmaster Baking Company, Minneapolis, Minnesota, of container board content of new fibre shipping containers during each of the third and fourth calendar quarters of 1945 so that its total usage for each of such quarters shall be 3,194 lbs., and 18,725 sq. ft. less than it would otherwise be permitted to use during each of those quarters under the provisions of Limitation Order L-317.

#### PART 1010—SUSPENSION ORDERS

[Suspension Order S-858]

SUPREME SHOE CO., INC.

Supreme Shoe Company, Inc., is a corporation with its principal office in Los Angeles, California. The corporation is engaged in the manufacture of shoes. During the six-months' period beginning March 1, 1944, the corporation manufactured 5,276 pairs of Misses' and Children's shoes, and during the six-months' period beginning September 1, 1944, the corporation manufactured 5,491 pairs of Misses' and Children's shoes, all without authorization of the War Production Board and in violation of War Production Board Conservation Order M-217. These violations were the result of gross negligence on the part of the corporation.

This unauthorized manufacture of shoes has diverted scarce material to uses not authorized by the War Production Board. In view of the foregoing, it is hereby ordered, that:

§ 1010.858 *Suspension Order S-858.* (a) Supreme Shoe Company, Inc., its successors or assigns, unless otherwise specifically authorized in writing by the War Production Board shall reduce by 500 pairs of shoes the number of pairs of shoes it would otherwise be entitled to produce during the six-months' period beginning March 1, 1945, and ending August 31, 1945, under the authorization to manufacture granted respondent by the War Production Board, and the corporation shall reduce by 11,267 pairs of shoes the number of pairs of shoes it would otherwise be entitled to produce during the six-months' period beginning September 1, 1945, and ending March 1, 1946, under the authorization to manufacture granted respondent by the War Production Board.

(b) Nothing contained in this order shall be deemed to relieve Supreme Shoe Company, Inc., its successors or assigns from any restriction, prohibition or provision contained in any other order or regulation of the War Production Board except insofar as the same may be inconsistent with the provisions hereof.

#### PART 1010—SUSPENSION ORDERS

[Suspension Order S-862]

ALLYN & BACON

Charles E. Bacon and Paul V. Bacon, copartners doing business as Allyn &

Bacon in Boston, Massachusetts, engaged in the publication of books, were charged by the War Production Board with having put into process or caused to be put into process during the calendar year 1944, 230 tons of paper and paperboard in excess of their quota in violation of War Production Board Limitation Order L-245. The actual overconsumption by the co-partnership during the year 1944 amounted to 460.35 tons but because an authorization for an increased quota for 1945 in the amount of 228.75 tons through error referred to the 1944 quota, the respondent was not charged with this additional amount. The violation with respect to the over-consumption of paper in the amount of 230 tons was wilful.

This excessive use of paper has diverted scarce materials to uses not authorized by the War Production Board. In view of the foregoing, it is hereby ordered, that:

§ 1010.862 *Suspension Order No. S-862.* (a) Charles E. Bacon and Paul V. Bacon, co-partners doing business as Allyn & Bacon, shall during the calendar year 1945 reduce the amount of paper which they put into process or caused to be put into process for the production of books to 1302.9 tons for the calendar year 1945 unless otherwise specifically authorized in writing by the War Production Board; provided, however, that if by amendment to the present Limitation Order L-245 or by any other Order of the War Production Board, the quota of Charles E. Bacon and Paul V. Bacon, co-partners doing business as Allyn & Bacon, is reduced below 1302.9 tons such more restrictive quota shall prevail.

(b) Nothing contained in this order shall be deemed to relieve Charles E. Bacon and Paul V. Bacon, co-partners doing business as Allyn & Bacon, their successors or assigns, or persons acting on their behalf, from any restriction, prohibition, or provision contained in any other order or regulation of the War Production Board except insofar as the same may be inconsistent with the provisions hereof.

(c) The restrictions and prohibitions contained herein shall apply to Charles E. Bacon and Paul V. Bacon, co-partners doing business as Allyn & Bacon, their successors or assigns, or persons acting on their behalf. Prohibitions against the taking of any action include the taking indirectly as well as directly of any such action.

#### PART 3175—REGULATIONS APPLICABLE TO THE CONTROLLED MATERIALS PLAN

[CMP Reg. 1, Interpretation 33]

#### ADVANCEMENT IN DELIVERY OF ORDERS FOR CONTROLLED MATERIALS

The following interpretation is issued with respect to CMP Reg. 1:

(a) In certain cases, controlled material producers may be able to produce and de-

liver orders in advance of the time permitted by paragraph (t) (4) of CMP Regulation 1. In such case, the order may be rescheduled for the earlier date under the conditions explained by this Interpretation.

(b) If the order is an authorized controlled material order, and the earlier date is within the same quarter for which the order was originally scheduled, the producer may schedule it for delivery at the earlier date as though it were a new order placed for delivery at that date, provided he gets agreement from his customer. If the earlier date is in a previous quarter, it cannot be scheduled as an authorized controlled material order unless the customer is able to revalidate the order against an allotment for that quarter. However, if the customer does not have such an allotment or does not wish to use it, the order can be scheduled and delivered as an unrated order with the customer's agreement.

(c) There is no prohibition in CMP Regulation 1 against the scheduling and delivery of unrated orders at a date earlier than that called for by the order. However, attention is called to the provisions of CMP Regulation 2, relating to inventories, which forbid delivery of controlled materials in excess of the limits of that regulation. A producer should usually assume that the delivery date on a customer's order is the earliest on which he can accept delivery under CMP Regulation 2. Thus, before delivering controlled material substantially earlier or in greater quantities than is called for by his customer's order, a producer is required to satisfy himself that the receipt by the customer of the changed quantities will be within the permissible inventory limitations applicable to the customer. The producer may rely on any statement or notice to this effect from his customer, unless he knows or has reason to know that it is false.

#### PART 3175—REGULATIONS APPLICABLE TO THE CONTROLLED MATERIALS PLAN

[CMP Reg. 2, Inventory Direction 25]

##### ALUMINUM INVENTORIES

The following inventory direction is issued pursuant to CMP Regulation 2:

§ 3175.125 *Inventory Direction 25 to CMP Regulation 2.* (a) The sixty-day restriction of paragraph (b) (1) of CMP Regulation 2 is changed to ninety days with respect to all forms and shapes of aluminum in controlled material form except extrusions (codes 4301 and 4311), and foil (code 4601).

(b) The inventory restrictions of CMP Regulation 2 and § 944.14 of Priorities Regulation 1 do not apply to aluminum where the total inventory of all shapes and forms of it, except extrusions and foil, in any operating unit does not and will not exceed 100,000 pounds. In determining his inventory for any operating unit, a person must comply with the provisions of paragraph (e) of CMP Regulation 2.

(c) The thirty-day provision of paragraph (c) (6) of CMP Regulation 2 relating to a minimum stockpile in anticipation of starting or resuming civilian production is changed to ninety days in

the case of all forms and shapes of aluminum except extrusions and foil.

(d) The inventory provisions of CMP Regulations 2 still apply to aluminum extrusions and foil, and, except as provided in this direction, to other shapes and forms of aluminum in controlled material form.

#### PART 3175—REGULATIONS APPLICABLE TO THE CONTROLLED MATERIALS PLAN

[CMP Reg. 2, Inventory Direction 26]

##### INVENTORY EXEMPTION FOR MANUFACTURERS OF JEWELLED WATCHES

§ 3175.126 *Inventory Direction 26 to CMP Regulation 2—(a) What this direction does.* In view of the relatively insignificant amounts of controlled material used in the aggregate by jeweled watch manufacturers, the difficulties of splitting up orders for these small quantities and the special nature of the items involved, the inventory restrictions of CMP Regulation 2 serve no useful purpose as applied to this industry. Accordingly, this direction exempts controlled materials used in such manufacture from WPB inventory restrictions.

(b) *Inventory exemption.* The inventory restrictions of paragraph (b) of CMP Regulation 2 and of § 944.14 of Priorities Regulation 1 do not apply to items of controlled material to be delivered to manufacturers for use in the production of jeweled watches. Therefore, delivery or acceptance of delivery of any item of controlled material to be used in such production is permitted without regard to these inventory restrictions.

#### PART 3270—CONTAINERS

[Limitation Order L-336, as Amended  
July 24, 1945]

##### SANITARY FOOD CONTAINERS

The fulfillment of requirements for the defense of the United States has created a shortage in the supply of certain sanitary food containers for defense, for private account and for export, and the following order is deemed necessary and appropriate in the public interest and to promote the national defense.

§ 3270.61 *Limitation Order L-336—(a) What this order does.* This order places limitations on the manufacture, delivery and use of certain types of sanitary food containers. Among other restrictions, the use of hot drink cups is permitted for only certain purposes, and

a monthly production set-aside for certain paper cups is required. A certificate is required on each purchase order for delivery of hot drink cups.

(b) *Definitions.* Wherever used in this order: (1) "Sanitary food containers" mean paper food containers and paper cups.

(2) "Paper food containers" mean all empty round nested containers, with or without lids, made of paper or paper-board but excluding wedge-shaped food pails and nested paper plates.

(3) "Paper cups" mean all empty open nested cups, with or without lids, made of paper, including but not limited to hot drink cups, cold drink cups, hot food cups, dishes (including flat-bottom dishes), water cups, and portion control cups. The term shall not include cups of the flat envelope type.

(4) "Hot drink cups" mean all cups made directly from moulded pulp, or all untreated tall cups, double-wrapped or single-wrapped of comparable weight, which are suitable for dispensing hot beverages. The term shall include all cups which at any stage of their manufacture fall within this definition of "hot drink cups".

(5) "Cold drink cups" means all one or two-piece cups, treated or untreated, of 6-ounce size or larger, which are not suitable for dispensing hot beverages.

(6) "Hot food cups" mean all untreated squat cups, 8 to 16 ounces inclusive, double-wrapped or single-wrapped of comparable weight, which are suitable for dispensing hot foods. The term shall include all cups which at any stage of their manufacture fall within the definition of "hot food cups".

(7) "Flat-bottom paper dishes" mean all four to seven ounce shallow, flat-bottom cups, pleated or two-piece nested, having a minimum taper of fifteen degrees.

(8) "Primary feeding" means the feeding of either food or hot beverages to persons, except feeding at gatherings of a purely social nature as at teas, parties or dances.

##### Restrictions on Manufacturers

(c) *General restriction on manufacture, sale or delivery.* No person shall manufacture, sell or deliver any sanitary food containers which he knows or has reason to believe will be accepted or used in violation of the terms of this order.

(d) *Maintenance of production of certain paper cups.* Each manufacturer of hot drink cups, flat-bottom cold drink cups or flat-bottom dishes, shall maintain during each calendar quarter, a production of each of these items equivalent to the highest quarterly production of that item attained during any calendar quarter beginning on or after October 1, 1943, to the extent permitted by this order and all other War Production Board regulations and orders, and subject to contingencies beyond his control.

(e) *Distribution of production of paper cups between military and civilian requirements.* (1) Regardless of preference ratings on other orders, each manufacturer of paper cups must set aside the following percentages of his production of paper cups in each month for de-

livery to the Army and the Navy (excluding domestic post exchanges and ship's service stores, but including those located outside of continental United States) in the sizes ordered by them: 35 percent of his monthly production of 6-9 ounce hot drink cups inclusive (not more than 60 percent of the total production of any one size to be produced need be included in the set-aside); 50 percent of his monthly production of 10 to 12-ounce hot drink cups inclusive; 70 percent of his monthly production of 6 to 9-ounce flat-bottom cold drink cups inclusive; 100 percent of his monthly production of 10 to 24-ounce flat-bottom cold drink cups inclusive; 75 percent of his monthly production of all flat-bottom dishes. He must make this set-aside in the following proportion to the Army and the Navy. 70 percent of each of the above specified five classes of cups to be set aside shall be reserved exclusively to fill Army orders received on or before the 15th day of the preceding month, and the remaining 30 percent shall be similarly reserved for the Navy. Any unordered portion of the Army set-aside shall be further reserved exclusively to fill Navy orders received on or before the 22d day of the preceding month, and any unordered portion of the Navy set-aside shall be similarly reserved for the Army. In the event that on the 23d day of any month, any portion of either the Army's or the Navy's set-aside remains unordered, such portion must be sold as provided in paragraph (e) (2). Set-aside under this paragraph shall be computed on the basis of number of cups.

(2) The balance of each manufacturer's production of hot drink cups, flat-bottomed cold drink cups and flat-bottom dishes shall be used exclusively to fill orders other than Army and Navy orders (excluding domestic post exchanges and ship's service stores, but including those located outside the continental United States) in accordance with Priorities Regulation 1 and the provisions of this order.

(3) The above set-aside provisions shall not apply to the July 1945 production of 10 to 12-ounce hot drink cups.

(f) *Prohibited manufacture, sale or delivery.* No person shall manufacture, sell or deliver the following types of paper cups if he knows or has reason to believe that they will be used for the purposes stated: (1) Packages of paper cups for retail sales, except that this restriction shall not apply to stocks of cups made up for retail sales which were on hand January 29, 1944; (2) Portion control or souffle cups for retail sales or for party favors.

#### *Restrictions on Delivery and Use of Paper Cups*

(g) *Certificate for delivery of hot drink cups.* No manufacturer, wholesaler, or jobber shall sell or deliver any hot drink cups to any person after July 31, 1945, unless he receives from such person with each purchase order (including each shipment order based on a long term requirements contract), a certificate in substantially the following form, signed manually or as provided in Priorities Regulation 7.

The undersigned purchaser certifies, subject to criminal penalties for misrepresentation, that he is familiar with Order L-336 of the War Production Board and that this order for hot drink cups and the use of the same by the undersigned is and will be in compliance with the order, as amended from time to time.

Furthermore, no manufacturer may sell or deliver any hot drink cups to any wholesaler or jobber unless he receives from such wholesaler or jobber, in addition to the above certificate, a copy of the applicable purchase order received by that wholesaler or jobber from the ultimate purchaser. The standard certificate provided for in paragraph (d) of Priorities Regulation 7 cannot be used in place of the above certificate; nor may the certificate provided by this order be waived in accordance with paragraph (f) of Priorities Regulation 7.

(h) *Restrictions on use of MRO preference ratings.* In purchasing paper cups other than hot drink cups, any person may use the blanket MRO rating assigned to him by any regulation or order of the War Production Board (including CMP Regulation 5, CMP Regulation 5A and orders in the P or U series). To purchase hot drink cups, only the persons described in paragraph (i) below may use blanket MRO ratings and then only for the purposes indicated in that paragraph. No person may use his MRO rating to buy paper food containers. Caterers or concessionnaires as described in paragraph (i) (4) below may also use their customer's MRO ratings to buy paper cups (including hot drink cups): *Provided*, That such cups are only used for the purposes for which they may use cups purchased on their own MRO rating. Furthermore, such customer may distribute to such caterer or concessionnaire for feeding the customer's employees, any paper cups obtained by the customer upon his MRO rating. Except as permitted for caterers and concessionnaires, blanket MRO ratings may not be used by any person to get paper cups for commercially packaging food or other products for shipment or delivery. No person may use his blanket MRO rating to buy paper cups which are to be sent to a commercial food packer to be filled and returned to him for use in feeding.

(i) *Restrictions on use of hot drink cups.* No person shall use hot drink cups except the following persons for the purposes indicated:

(1) Army and Navy (excluding domestic post exchanges and ship's service stores but including those located outside of continental United States) for any purpose.

(2) Army post exchanges and Navy ship's service stores, located within the Continental United States, for a primary feeding purpose only.

(3) Industrial establishments for primary feeding of their employees on their premises.

(4) Caterers or concessionnaires for primary feeding of employees of one of the persons described in (3) above, on such person's premises, and pursuant to a written agreement with such person.

(5) Veterans' Administration hospitals and all other hospitals for any purpose.

(6) Red Cross for serving food or hot beverages at blood banks or for primary feeding purposes only.

(7) USO for primary feeding purposes only.

(8) Persons when engaged in serving food or drink in planes and trains.

(9) Educational institutions for primary feeding only of their students and personnel.

(10) Any individual for his personal use.

(11) A person who has been specifically authorized by the War Production Board to use hot drink cups for a specified purpose. Such authorizations will be granted only in cases where hot drink cups will be for use in scientific and research projects or for use in industrial production operations that are directly related to contracts or sub-contracts with the Army, Navy or other Government agencies. Application for such authorization shall be made by letter in triplicate, addressed to the Containers Division, War Production Board, Washington 25, D. C., Reference L-336 and shall contain the following information:

(i) A specific description of the scientific or research project, or the industrial product being manufactured for which the cups are required. In the event this is confidential Government information, the applicant may so state and give instead the Government contract number under which he is operating and the name of the sponsoring Government agency.

(ii) The number of hot drink cups required monthly.

(iii) The specific reason why hot drink cups must be used in lieu of some other container.

#### *General Provisions*

(j) *Inventory.* No person shall accept, have set aside or held for his account, any quantity of sanitary food containers which will increase his inventory of such containers to more than his reasonably anticipated requirements for the next 45 days, except that, whenever his inventory is less than a 45-days' supply, he may accept the minimum delivery required by his supplier under a published price list or sales policy in effect on October 29, 1943. No person shall order any quantity of sanitary food containers for delivery to him or for his account on any date, if receipt thereof on that date would increase his inventory of such containers to more than the amount permitted in the first sentence of this paragraph. This provision does not apply to the Armed Forces, Post Exchanges, Ship's Service Stores and individuals who accept sanitary food containers for their personal use.

(k) *Appeals.* Appeals from Order L-336 shall be filed by addressing a letter in triplicate to the Containers Division, War Production Board, Washington 25, D. C., Reference L-336. The let-

ter of appeal need not follow any particular form. It should state informally, but completely, the particular provisions appealed from, the precise relief desired, the reasons why denial of the appeal would result in exceptional and unreasonable hardship, and such other statistical and narrative information as may be pertinent.

(l) *Violations.* Any person who willfully violates any provision of this order, or who, in connection with this order, willfully conceals a material fact or furnishes false information to any department or agency of the United States is guilty of a crime, and upon conviction may be punished by fine or imprisonment. In addition, any such person may be prohibited from making or obtaining further deliveries of, or from processing or using material under priority control, and may be deprived of priorities assistance.

(m) *Reports.* All paper food container or paper cup manufacturers shall file Form WPB-3366 in accordance with the instructions in that form. This reporting requirement has been approved by the Bureau of the Budget in accordance with the Federal Reports Act of 1942. All persons affected by this order shall file such other reports and questionnaires as the War Production Board may request from time to time subject to the approval of the Bureau of the Budget.

(n) *Communications.* All inquiries relating to this order other than appeals shall be addressed to the War Production Board, Containers Division, Washington 25, D. C., reference: Order L-336.

#### INTERPRETATION 1

##### PAPER CUPS FOR INDIVIDUALS FOR THEIR PERSONAL USE

One of the persons entitled to use hot drink cups as prescribed in paragraph (i) is "any individual for his personal use." This provision does not permit any business establishment to furnish hot drink cups for the use of individuals who come to its establishment for food or drink. Such use of cups must be regarded as a commercial use by the establishment for the attraction of its customers for which it will receive either directly or indirectly some business gain. Unless such establishment qualifies as one of the other persons permitted to use hot drink cups described in paragraph (i), the above-described use is prohibited by Order L-336. (Issued July 13, 1945.)

##### PART 1315—RUBBER AND PRODUCTS AND MATERIALS OF WHICH RUBBER IS A COMPONENT

[RO 1A, Amdt. 102]

##### TIRES, TUBES, RECAPPING AND CAMELBACK

A rationale for this amendment has been issued simultaneously herewith and has been filed with the Division of the Federal Register.

Ration Order No. 1A is amended in the following respect:

Section 1315.552 is added to read as follows:

§ 1315.552 *Allotments to wholesale distributors*—(a) *What dealers are eligible for an allotment.* A dealer is eligible to apply for an allotment of tires for an establishment which meets all the conditions specified below in this paragraph:

(1) The establishment was engaged in the transfer of tires during the ninety days preceding the date of the application for an allotment;

(2) OPA Form R-71 (Dealer's Registration of Grade I and Grade II tires and Parts B as of June 30, 1945) was filed for the establishment if the establishment was engaged in the transfer of tires on June 30, 1945;

(3) The establishment customarily receives its supply of tires directly from a factory;

(4) At least sixty-five (65) percent of the type or cross-section size group of tires applied for, transferred from the establishment during the two calendar months preceding the month in which application is made, were transferred to

<sup>1</sup> 7 F.R. 9160, 9392, 9724.

other dealer establishments in exchange for replenishment portions of certificates or receipts;

(5) A manufacturer who supplies the dealer has completed the certification on OPA Form R-77A with respect to the establishment.

(b) *Manner of application.* (1) A dealer who is eligible for an allotment of tires under paragraph (a) shall apply on OPA Form R-77 to the District Director serving the area in which his establishment is located. He shall attach to his application a copy of OPA Form R-77A completed by a manufacturer, and the dealer's copy of OPA Form R-71 which was filed for the establishment.

(2) A manufacturer who sends a completed copy of OPA Form R-77A to a dealer shall, at the same time, send a duplicate signed copy to the Tire Rationing Branch, Office of Price Administration, Washington 25, D. C.

(c) *Amount of allotment.* The maximum number of tires which a District Director may allot to a dealer whose establishment is eligible under paragraph (a) shall be, for each type and cross-section size group, twice the manufacturer's allocation of such tires to the establishment for the month certified on OPA Form R-77A (totalling all manufacturers' allocations of such tires to the establishment) less the establishments' accountable inventory of such tires. The accountable inventory of an establishment engaged in the transfer of tires on June 30, 1945, is the figure shown on line 6 of OPA Form R-71 as adjusted by increases or decreases made upon authorization of a District Director. The accountable inventory of an establishment which began the transfer of tires after June 30, 1945, is the number of tires the establishment was authorized to acquire by a District Director as adjusted by decreases made on authorization of a District Director.

The District Director shall issue the allotment on Parts B of certificates. Parts B for less than the maximum allotment of tires may, however, be issued at the dealer's request.

(d) *Limitation on frequency of allotments.* A District Director may not grant an applicant an additional allotment of tires of a particular type or cross-section size group until 90 days have elapsed since the date his last application was approved. Such additional allotments shall be based on new applications and a manufacturer's certifications on OPA Form R-77A.

This amendment shall become effective July 28, 1945.

# PART 1305—ADMINISTRATION [Supp. Order 122]

## RESALES OF CERTAIN COMMODITIES SOLD BY GOVERNMENT AGENCIES

A statement of the considerations involved in the issuance of this supplementary order, issued simultaneously herewith, has been filed with the Division of the Federal Register.

### Sec.

1. What this supplementary order covers.
2. Suggestions for the use of this supplementary order.
3. How to fix maximum prices.
4. Heterogeneous lots of commodities.
5. Maximum prices for cross-stream and up-stream sales.
6. New sellers and sales that cannot be priced under Section 3 or 4.
7. Application by Government agencies for special maximum resale prices or exemptions.
8. Records, invoices, notification.
9. Export sales.
10. Prohibited acts.
11. Licensing and enforcement.
12. Where this supplementary order applies.
13. Delegation to field offices.
14. Definitions.

AUTHORITY: § 1305.150 issued under 56 Stat. 23,765; 57 Stat. 566; Pub. Law 383, 78th Cong.; Pub. Law 108, 79th Cong.; E.O. 9250, 7 F.R. 7871; E.O. 9328, 8 F.R. 4681.

SEC. 1. *What this supplementary order covers* (a) This supplementary order fixes ceiling prices for resales in substantially the same form of commodities (except food) sold by Government Agencies, except where:

(1) The resale is subject to any of the price regulations listed in Appendix A.

(2) The resale is subject to any order issued under Supplementary Order 94, (See Appendix B for partial list of Supplementary Order 94 Orders),

(3) The resale is of a new commodity by a manufacturer who regularly manufactures or produces the same commodity.

(4) The resale is of commodities designated by the Government agency as "salvage" (as defined in section 14), *Provided*, That any "salvage" which is purchased as a completed commodity and resold in substantially the same form shall be subject to this supplementary order. The term "completed commodity," as used herein, shall not include component parts, semi-processed and semi-fabricated material.

(5) The resale is exempt from price control under any existing price regulation or supplementary order.

SEC. 2. *Suggestions for the use of this supplementary order.* In using this supplementary order, the following steps are suggested:

(a) *Determine the regulation applicable to the sale of the commodity being sold.* Find what regulation generally governs the resale of the particular commodity you are selling: "The Directory of Commodities and Services" issued by the Office of Price Administration is a convenient guide for this purpose. (It may be secured from the Superintendent of Documents, U. S. Government Printing Office, Washington 25, D. C. price \$1.25 including supplements). If your resale is not governed by a regulation listed in Appendix A, then ascertain whether your resale is governed by an order issued under Supplementary Order 94. (Orders under Supplementary Order 94 that may be applicable to your resale are published in the Federal Register. A partial list of such orders may also be found in Appendix B. Additional National and Regional orders not listed in Appendix B have been and will be issued, so the list given there is not complete. Copies may also be obtained from any OPA office.)

(b) *Determine the ceiling price under this supplementary order for resales not governed by regulations listed in Appendix A or by orders issued under Supplementary Order 94.* Maximum prices for resales of commodities sold by the Government agencies and governed by this order are determined by two methods: First, the Government selling agency may propose, prior to sale, maximum prices for resales of specific lots of commodities or exemption of such resales from price control (see section 7). Where such resale prices or exemptions are approved by the Office of Price Administration, the Government selling agency and all subsequent resellers (except those selling to users) are required to mark the OPA approved maximum resale prices at each level of distribution or exemptions on all invoices, and sell at no higher than the stated maximum prices.

Second, if your invoice does not carry any notation of prior OPA action, your maximum resale price should be determined under section 3. This section provides that maximum resale prices are determined by adding to the invoice cost of the commodity a percentage mark-up not in excess of your normal percentage mark-up on a comparable commodity acquired from non-government sources. Adjustments in the margin over cost so calculated may be made, however, to arrive at "adequate" margins. To accomplish this purpose, cost may be adjusted for deteriorated and damaged items and for repairs or reconditioning actually performed. Under certain circumstances the percentage margin may be calculated on one-half or one-quarter the Government ceiling price if this figure is more than the price paid. In all cases where a percentage mark-up must be used, in-bound freight actually paid

may be added after the mark-up is added to cost. Resales of heterogeneous lots are governed by section 4.

Resellers unable to price under the above method because they do not have mark-ups on comparable commodities should apply to OPA (section 6). Unusual pyramiding of resale prices by cross-stream or up-stream sales is prohibited (section 5). All retailers are required to tag or display retail ceilings (section 8).

SEC. 3. *How to fix maximum prices.* Subject to the provisions of section 5 for cross-stream and up-stream sellers and buyers, maximum prices are determined as follows:

(a) *Calculation of mark-up.* (1) To fix your maximum price for any sale of a commodity governed by Maximum Price Regulation 580, Maximum Price Regulation 590, or Revised Maximum Price Regulation 330, you must first determine your category average percentage mark-up which is permitted by those regulations for the commodity you are selling.

*Example.* If you are a retailer and have bought some government surplus U. S. Navy gray shirts, you would consult your base date pricing chart prepared according to the instructions in Maximum Price Regulation 580 for Category 117, Shirts. If your average percentage mark-up on cost for the category is 61%, that is the mark-up you would use for the surplus shirts.

(2) To fix your maximum price for any sale of any other commodity, you must first figure your percentage mark-up over net invoice cost for a comparable commodity having the same general use purchased by you from your normal commercial (non-government) sources of supply which you sold to the same class of buyer during the year June 1, 1944-June 1, 1945. In figuring your percentage mark-up you must use a selling price for the comparable commodity which is no higher than your legally established maximum price. The comparable commodity must meet all of the following tests:

(i) It has been sold by you during the year June 1, 1944 to June 1, 1945 and a maximum price has been legally established.

(ii) It has been purchased by you from a regular commercial supplier, and to your knowledge, it has not been acquired directly or indirectly from the Government.

(iii) Both it and the commodity you are pricing must have the same general use and must belong to a class of commodities to which, according to your customary practice, you usually apply an approximately uniform initial percentage mark-up.

If you are selling a used commodity and did not sell a comparable used commodity in the base period, you may use the mark-up on a comparable new commodity.

*Example.* If the maximum price for a comparable commodity is \$5.00 and the net invoice cost is \$4.00, you figure your percentage mark-up by dividing the margin (difference between maximum price and invoice cost) by the invoice cost as follows:

\$5.00 maximum price—comparable commodity  
—4.00 invoice cost

1.00 margin

$1.00 \div \$4.00 = 25\%$  your percentage mark-up.<sup>1</sup>

(b) *Application of percentage mark-up to invoice cost.* Your next step is to figure your maximum price by multiplying the unit invoice cost of the commodity sold by the Government by the percentage mark-up over net unit invoice cost determined as specified above. Add the resulting figure to the unit invoice cost of the commodity you are pricing. Then add to this sum the incoming freight per unit which you actually paid.

Example:

Percentage mark-up (step 1)—25%	
Unit invoice cost item being priced—	\$3.50
Mark-up (25% of \$3.50)-----	.87
	4.37
Freight paid (\$4.00 for 100 units)---	.04
Your maximum price-----	4.41

If you purchased the same commodity from more than one Government or distributor source you may average the unit invoice cost by dividing the total invoice cost for the whole quantity purchased by the total quantity purchased, and you may average the unit incoming freight by dividing the total freight paid by the total quantity purchased. However, if additional quantities of the same commodity are later purchased you must re-determine your maximum price by either of the following methods:

(1) You may fix a maximum price for each later purchase in the same manner that you originally fixed your maximum price. If you follow this method, you must keep your new stock separate from the old, where your maximum price for your new stock is different from that for the old stock. However, if both new and old stocks are sold at the same price at or below the lowest maximum price applicable to either the old or the new stock, stocks need not be kept separate.

(2) You may refigure the original maximum price by dividing the total cost of all purchases in stock by the total quantity of such purchases. You may then apply the percentage mark-up on a comparable commodity to the resulting average invoice cost for all purchases and determine your maximum price in the manner specified above.

(c) *Chain stores.* If the seller is a chain or has a number of selling outlets, it may establish its maximum prices for each outlet separately or on the basis of central pricing, according to its lawful practice in determining maximum prices on comparable commodities.

(d) *Adjustment of unit invoice cost for commodities which are broken, deteriorated, damaged, reconditioned or repaired.*—(1) *For broken, deteriorated or damaged commodities.* In fixing his maximum price under paragraph (b), the purchaser who buys directly from the Government (but not any subsequent

purchaser who buys from the first purchaser) may adjust his unit invoice cost for the salable part of the quantity of the commodity purchased when part of the quantity purchased is broken, deteriorated or damaged to the extent of being unsalable, except as scrap, in the following manner:

(i) You may divide the total invoice cost (less the estimated scrap value of the portion not salable) by the quantity of commodities which you have determined as salable after inspection and segregation. The result will be your adjusted unit invoice cost. However, in the case of new commodities, the adjusted unit invoice cost must not exceed the Government ceiling price per unit; if it does, you must reduce the adjusted unit invoice cost to the Government unit ceiling price. In the case of used commodities, the adjusted unit invoice cost must not exceed one-half the Government unit ceiling prices new; if it does, you must reduce the adjusted unit invoice cost to one-half the Government unit ceiling price new.<sup>2</sup>

Example. You have purchased "as is" 100 used metal bomb chests for \$100.00 for the lot. The Government ceiling price new as furnished by the Government agency is \$4.00 each. Twenty-five chests are found to be badly rusted and dented, and salable only as scrap. To obtain your adjusted unit invoice cost you may calculate the cost of the 75 salable chests as follows:

Price paid for 100-----	\$100.00
Scrap value of 25-----	2.00
Cost of salable units-----	98.00
Adjusted unit cost— $98.00 \div 75$ —	\$1.31

You may calculate your mark-up on \$1.31 and add it to \$1.31, just as though you had paid \$1.31 for each chest.

NOTE: If the adjusted unit invoice cost exceeded \$2 (½ Government ceiling price new), you would have had to reduce it to \$2.

(2) *For reconditioned or repaired used commodities.* In fixing his maximum price under paragraph (b), the purchaser who buys directly from the Government (but not any subsequent purchaser who buys from the first purchaser), when he reconditions or repairs salable used commodities, may adjust his unit invoice cost in the following manner.

(i) You may add to the total invoice cost (less the estimated scrap value of the portion not salable except as scrap) the actual cost incurred for labor and materials used in reconditioning or repairing any of the commodities. You may then divide this total cost by the quantity of commodities which you have determined as salable after inspection and segregation. The result will be your adjusted unit invoice cost. However, the adjusted unit invoice cost must not exceed one-half the Government unit ceiling price new; if it does, you must reduce the adjusted unit invoice to one-half the Government unit ceiling price new.<sup>3</sup>

If you make the adjustment provided in this subparagraph (2), you must use the percentage mark-up on a comparable new commodity.

<sup>2</sup> This adjustment may not be made unless the Government selling agency has furnished to you the Government ceiling price.

<sup>3</sup> See footnote 2.

Example. You have purchased 100 used metal bomb chests for \$100. The Government ceiling price new as furnished by the Government agency is \$4.00 each. Twenty-five chests are scratched and rusted, but are salable after repainting. Cost of repainting is \$1.25 for paint, and \$5.00 for labor. You may calculate your unit invoice cost as follows:

Price paid for 100—	\$100.00
Cost of reconditioning 25 chests:	
Labor-----	\$5.00
Material-----	1.25
	6.25

Adjusted total cost----- \$106.25  
Adjusted unit cost— $106.25 \div 100$ —\$1.06

You may calculate your mark-up on \$1.06 and add it to \$1.06.

NOTE: If the adjusted unit invoice cost exceeded \$2 (½ Government ceiling price new), you would have had to reduce it to \$2.00.

(3) If you adjust your unit invoice cost under this paragraph (d), you must, before you offer the commodities for sale, file with the Surplus Goods Price Coordinator of the District Office of the Office of Price Administration in the District in which you are located the following information:

(i) Your name, business address and type of business.

(ii) Description of the commodities purchased by you, and name of Government selling agency.

(iii) The Government ceiling price as furnished by the Government agency.

(iv) Quantity of broken, deteriorated or damaged commodities, if any, which are unsalable except as scrap.

(v) Quantity and total invoice cost of commodities purchased by you.

(vi) Estimated scrap value of portion not salable, if any.

(vii) Breakdown of labor and materials cost for reconditioning or repairing.

(viii) Your adjusted unit invoice cost.

(ix) Your sales price.

(4) You may not apply the foregoing provisions of this paragraph (d) where the condition of the commodity is warranted or guaranteed, by the Government agency.

(e) *Low price Government sales.* If you pay to the Government or to your supplier a price less than one-half the Government ceiling price for a new commodity, you may apply the percentage mark-up obtained under paragraph (a) above to one-half of the Government's ceiling price new instead of the actual unit invoice cost. If you pay to the Government or to your supplier a price less than one-fourth the Government ceiling price new for a used commodity, you may apply the percentage mark-up obtained under paragraph (a) above to one-fourth of the Government ceiling price new instead of the actual unit invoice cost. You then add the dollar-and-cents mark-up so obtained to the actual unit invoice cost in order to get your maximum price.<sup>4</sup> You may then add your incoming freight.

Example. If you buy a new commodity for \$1.00 for which the Government ceiling price is \$10.00 and your percentage mark-up ac-

<sup>4</sup> This adjustment may not be made unless the Government selling agency has furnished to you or your supplier the Government ceiling price.

<sup>1</sup> You may, if you wish, figure your percentage mark-ups as "mark-ups on selling price" instead of on your net cost, but you must use the same method in figuring all percentage mark-ups and in applying all percentage mark-ups.

cording to Section 3 (a) is 25%. you may calculate your ceiling price as follows:

Mark-up on one-half Government ceiling (25% of \$5.00) =	\$1.25
Purchase price paid Government =	1.00
Total =	2.25
Inbound freight =	.04
	2.29

(f) *Commodities same as regular stock.* If the commodity which you purchased directly or indirectly from the Government is the same as a commodity not acquired directly or indirectly from the Government and which you have currently in stock and are offering for sale, and your regular stock currently available for sale has a lawfully established maximum price higher than the maximum price established under the foregoing provisions, you may sell the commodity at the lawfully established maximum price for the commodity currently in stock. Similarly, if the lawfully established maximum price for the commodity you have in stock is lower than the price which would be established under the foregoing provisions, the lawfully established price must remain in effect for the commodity acquired directly or indirectly from the Government.

**Sec. 4. Heterogeneous lots of commodities.** If you purchase a heterogeneous lot of commodities directly or indirectly from the Government and intend to resell the lot on an individual item basis, you must place an appraisal not to exceed your actual or estimated replacement cost upon each item in the lot, including items whose resale is not subject to this order. The item appraisals must bear a reasonable relationship to the relative sales values of the items. The total of the individual appraisals must not exceed your original purchase cost of the entire lot plus inbound freight actually paid. If you recondition or repair any item, the actual labor and materials cost incurred for such reconditioning or repairing may be added to the individual item appraisal. In selling individual items which are subject to this Supplementary Order from the lot, fix your maximum price in accordance with Section 3 except that the unit appraisal item cost (plus the actual labor and materials cost of reconditioning or repairing where incurred) will be substituted for the unit invoice cost.

A record must be kept of the individual item appraisals and must be made available for inspection by any authorized agent of the Office of Price Administration.

When you resell the entire lot to one purchaser, you fix your maximum price for the entire lot by adding to the invoice cost of the lot the percentage mark-up applying to the principal class of commodities (by value) in the lot. Then add to the sum the incoming freight which was actually paid.

**Sec. 5. Maximum prices for cross-stream and up-stream sales.** For the purposes of this supplementary order, the regular sequence of distribution is assumed to consist of three successive levels. These three levels are (i) sales by the Government to wholesalers or re-

tailers (ii) sales by wholesalers to industrial users, exporters or retailers and (iii) sales by retailers to consumers. A sale by one wholesaler to another, by one exporter to another, or by one retailer to another is a cross-stream sale. A sale by a retailer to a wholesaler or any other similar sale is an up-stream sale.

For the purposes of this section 5, a person is a retailer if a major portion of his sales of comparable commodities is to ultimate consumers; a person is a wholesaler if a major portion of his sales of comparable commodities is to persons other than ultimate consumers.

Maximum prices for cross-stream or up-stream sales shall be determined as follows:

(a) If the seller has a legally established practice of selling commodities comparable to those sold by the Government, to other sellers of his class, as defined herein and has legally established maximum prices to that class of buyer, (that is, if he is a wholesaler and customarily sells to other wholesalers, etc.) he may fix his maximum price in accordance with section 3, *Provided*, That he files with the Surplus Goods Price Coordinator of the Regional Office of the Office of Price Administration in whose region he is located, a statement in duplicate supplying the following information:

(1) His name, business address, and type of business.

(2) Each type of commodity which he normally sells to other sellers at the same level of distribution.

(3) For each type of commodity listed in (2) above, the names of at least three purchasers at the same level of distribution who normally purchased from the supplier.

(4) The precise method by which he established his maximum price for sales of the comparable commodity to the class of buyers to whom he proposes to sell. For example, if you regularly sold to this class of buyer in March 1942 and the commodity is priced under the General Maximum Price Regulation, or you have an order under the General Maximum Price Regulation, you should report this as your method.

Filing of this statement will permit cross-stream sales at maximum prices determined under section 3 or 4 of only those classes of commodities which the seller has customarily sold in such channels.

(b) If the seller cannot qualify under paragraph (a), he may fix his maximum price for cross-stream sales only by splitting his mark-up with the purchaser at the same level of distribution. He does this by determining the mark-up applicable on sales to the next succeeding level of distribution (e. g. if he is a wholesaler, the mark-up applicable to the same quantity for sales to a retailer). He may then make the cross-stream sale at any price below his maximum price for a sale to a purchaser at the next succeeding level; *Provided*, That he gives notice to the cross-stream buyer that the buyer's maximum price for sales to the next buyer is the original cross-stream seller's maximum price. The cross-stream buyer's maximum price shall be the maximum price of the cross-

stream seller determined as specified. For example, if you are a wholesaler selling to another wholesaler and your maximum price for sales to retailers is \$1.00 each, you may sell to another wholesaler at, say, 90¢ if you notify the buyer as follows: "Your maximum price for sales to retailers under section 5 (b) of Supplementary Order 122 is \$1.00."

(1) If any cross-stream seller fails to furnish his buyer the notice required in (b) herein, his maximum price shall be the net invoice cost of the commodity to him plus inbound freight, regardless of the other pricing provisions of this Supplementary Order 122.

(c) Any other person who proposes to make cross-stream sales or any person who proposes to make up-stream sales who cannot qualify as a regular cross-stream or up-stream seller under paragraph (a) and who does not choose to sell under paragraph (b), must request authorization of maximum prices from the nearest Regional Office of the Office of Price Administration for cross-stream or up-stream sales. He may make application by writing a letter to the Regional Office of the Office of Price Administration giving his name and business address, a complete description of the commodity which he proposes to sell to cross-stream or up-stream buyers, the reasons why he believes such selling would not add unnecessarily to the level of prices and the cost of distribution, his invoice cost and the mark-up which he proposes to take on the sale, and the basis for his computation of the mark-up proposed. Any such cross-stream or up-stream sale may not be made without the approval in writing from the Office of Price Administration.

(4) Any person who has purchased commodities sold by the Government from a seller other than a Government agency and who proposes to sell those commodities to an exporter for export sale shall be considered a cross-stream or up-stream seller.

**Sec. 6. New sellers and sales that cannot be priced under section 3 or 4.** (a) Any seller who proposes to make sales of commodities sold by the Government which cannot be priced under section 3 or 4 may file with the Regional or District Office of the Office of Price Administration in the region or district in which he is located, an application to use applicable mark-ups to all classes of commodities and buyers to whom he expects to sell.

The application must contain the following information:

(1) Name and address of the seller, and a description of his facilities for conducting a business.

(2) The date on which the business was or will be established.

(3) The name of the owners of the firm, and a statement of their financial interest in any other firm engaged in distribution of commodities.

(4) The classes of buyers to whom the firm proposes to sell, e. g., retailers, consumers, exporters.

(5) The classes of commodities which the firm proposes to sell, e. g., builders hardware, surplus army apparel, etc.

(6) The reasons why the pricing provisions of section 3 or 4 cannot be used.

(7) His proposed pricing method for each class of commodities listed under (5) for sales to each class of buyer listed under (4) and his justification of the method proposed. He may propose the mark-ups used by a competitor if he gives the name of the competitor.

(8) The name and address of two competitors whom he regards as being most closely competitive.

If the applicant does not hear from the Office of Price Administration to the contrary within 30 days after filing his application, and if the application contained all the information required, he may use the pricing method proposed. OPA may later adjust his prices or pricing method non-retroactively.

**SEC. 7. Application by Government agencies for special maximum resale prices or exemptions.**—(a) *When Government agencies may apply.* Any Government agency prior to a sale by it may apply to the OPA for special maximum prices applicable to the resales of specific lots of commodities sold by it and subject to this supplementary order or for exemption from price control of such resales.

(b) *Special maximum prices to be applied for.*—(1) *Used Commodities.* In the case of used commodities, the Government agency may apply for the establishment of maximum prices for sales at retail of the commodity in Class I and II condition. If the maximum price requested for used commodities in Class I condition is no higher than the Government ceiling price for the commodity in new condition, and if the maximum price requested for used commodities in Class II condition is no higher than 66⅔% of the Government ceiling price for the commodity in new condition, the requested retail ceiling prices will not be disapproved by the Office of Price Administration. Where the retail ceiling price is established hereunder, all resales except sales at retail or sales to exporters shall be exempt from price control, *Provided*, That every seller (except a retailer), including the Government agency, gives the buyer written notice in any convenient form of the retail ceiling price when he offers the commodity for sale, and *Provided further*, That the invoice of sale or equivalent document furnished to the buyer by the seller states the retail ceiling price.

(i) *Class I.* A commodity is in Class I condition if no part is missing which is necessary to make the commodity fully useful; the commodity is in good working condition, can be used by the consumer for the purpose intended without further repair, and the commodity is clean and its appearance is good.

(ii) *Class II.* A commodity is in Class II condition if it is not in Class I.

(2) *New commodities.* In the case of new commodities, the Government agency may apply for the establishment of maximum prices for sales of the commodity at wholesale and sales at retail or sales at any other normal level of distribution. The requested maximum prices may be expressed in terms of prices at retail with specified discounts, as mark-ups over Government selling price or in any other appropriate manner. If the maximum prices requested

permit generally fair and equitable percentage margins for normal levels of distribution, and if the Government selling price to wholesalers or jobbers is no higher than the Government ceiling price, the requested maximum prices will not be disapproved by the Office of Price Administration.

(c) *When a requested maximum price may be deemed approved.* Any maximum price requested by a Government agency in accordance with the provisions of paragraph (b) herein shall be deemed approved unless OPA gives notice to the contrary within 7 days from the date the application is filed with the Office of Price Administration.

(d) *Actual notice of special resale maximum prices.*—(1) *Invoicing.* Every reseller, except a retailer, shall furnish his buyer with an invoice of sale setting forth the maximum prices for sales at each level of distribution established under this Section 7.

(2) *Failure to furnish invoice.* If any reseller who has been furnished the resale maximum prices as provided herein fails to furnish his buyer the information required by sub-paragraph (1) herein, his maximum price for the sale shall be the net invoice cost of the commodity to him plus inbound freight actually paid by him, regardless of the other pricing provisions of this supplementary order.

(e) *Resale maximum prices applicable in absence of actual notice.* In the absence of receipt of actual notice by resellers of prices established or exemptions granted pursuant to this section, the resellers shall compute their maximum resale prices in accordance with the provisions of Section 3.

(f) *Exemptions.* Where the Government agency applies for an exemption from price control of resales of specific lots of commodities, the Office of Price Administration may grant the requested exemption from price control of the particular resales when in its opinion, inflationary consequences will not result from the exemption because of market conditions, the use to which the commodity may be put, or the fact that the prices that may be charged will not tend to increase the cost of living or other prices.

**SEC. 8. Records, invoices, notification—Records.** The records required by this section must be kept for so long as the Emergency Price Control Act of 1942, as amended, remain in effect. All such records must be kept at your place of business.

(a) *Current records.*—(1) *Preserving invoices.* You must preserve the purchase invoices which you receive for all commodities purchased from your supplier. You must keep these invoices in alphabetical, numerical, or chronological order, or according to some other recognized filing system. Upon request of any authorized agent of the Office of Price Administration, you must let him examine your purchase invoices for any commodities covered by this Supplementary Order, for which such request is made.

(2) *"Wholesaling" or "Retailing" invoices.* Every reseller must "wholesale" or "retail" his supplier's invoice. To

"wholesale" or "retail" his supplier's invoice he must write on the invoice or upon a separate sheet (which must refer to the purchase invoice) either the name of the comparable commodity or of the appropriate category under Maximum Price Regulation 580, 590, or 330 and the percentage mark-up which this supplementary order allows. He must also show the calculations of his maximum price for the commodity sold by the Government by applying the permissible mark-up to the unit invoice cost (adjusted as permitted) of the commodity sold by the Government. Inbound freight, if added, must be shown separately. However, if the seller prices under section 3 (f) he need only write the name of the same commodity and its maximum price upon the invoice. If his price for a commodity is established under section 7, he is not required to "wholesale" or "retail" his invoice.

(b) *Base period records.* You must preserve for examination by the Office of Price Administration all existing records relating to the commodities which you purchased from your normal commercial sources of supply and which you sold during the year June 1, 1944–June 1, 1945.

(c) *Notification.* Every reseller of commodities sold by the Government who sells to anyone except an ultimate consumer must furnish the buyer an invoice identifying the commodity and setting forth the words "Government Surplus priced under Supplementary Order 122."

(d) *Marking and tagging.* Any person who sells at retail commodities subject to this Supplementary Order 122 must mark the maximum prices or selling prices of each commodity by either of the methods described in sub-paragraphs (1) and (2), in a manner plainly visible to, and understandable by, the purchasing public.

(1) *Marking.* He may mark the maximum price or the selling price on the shelf, bin, rack, or other holder or container upon or in which the commodity is kept provided all the commodities kept on or in the shelf, bin, rack, holder or container have the same maximum price or selling price.

(2) *Tagging.* If he does not wish to mark the prices as described in (1), he must mark the maximum price or the selling price on each commodity by writing the price directly on the commodity or by attaching to the commodity a tag or ticket stating the maximum price or selling price.

(3) *Ways to mark or tag maximum prices.* If he wishes to mark or tag the maximum prices, he may do so in either of the following ways:

- (i) "Ceiling price \$-----" or
- (ii) "Our ceiling \$-----"

(4) *How to mark or tag selling prices.* If he does not wish to mark or tag the maximum prices, he must mark or tag the selling price as follows:

"OPA Price, \$-----"

(5) *Posting.* If he wishes to mark or tag commodities with the selling price as described in (4), he must also post in a prominent and clearly visible position in his store, a sign stating the following:

The "OPA Price" marked or tagged on merchandise in this store is no higher than the OPA ceiling price of the articles.

SEC. 9. Export sales. The maximum price at which a seller may export any commodity sold by the Government shall be determined in accordance with the provisions of Maximum Export Price Regulation, as revised.

SEC. 10. Prohibited acts—(1) *Charging more than maximum prices.* Every reseller who is subject to the provisions of this supplementary order is prohibited from selling or delivering any commodity at a price higher than the maximum price permitted by these provisions. A lower price may, of course, be charged.

(2) *Buying for more than maximum price.* Every person is prohibited from buying or receiving, in the course of trade or business, any commodity sold in violation of any of the provisions of this supplementary order.

SEC. 11. Licensing and enforcement—(a) *Licensing.* The provisions of Licensing Order No. 1, licensing all persons who make sales under price control, are applicable to all sellers subject to this supplementary order. A seller's license may be suspended for violation of the license or of this Supplementary order. A person whose license is suspended may not, during the period of suspension, make any sale for which his license has been suspended.

(b) *Penalties.* Any person who violates any provisions of this regulation is subject to the criminal penalties, civil enforcement actions, suits for treble damages, and proceedings for suspension of licenses provided by the Emergency Price Control Act of 1942, as amended.

SEC. 12. Where this supplementary order applies. The provisions of this supplementary order shall be applicable in the 48 states of the United States and the District of Columbia.

#### APPENDIX A—RESALES EXCLUDED FROM SUPPLEMENTARY ORDER 122

When the resale of a commodity is subject to any one of the regulations listed herein, the provisions of Supplementary Order 122 shall not apply to the resale, and the reseller remains subject to these applicable regulations.

#### NOTICE OF APPLICATION

JULY 23, 1945.

Notice is hereby given that on July 13, 1945, an application was filed with the Federal Power Commission by Natural Gas Pipeline Company of America ("Natural") and Texoma Natural Gas Company ("Texoma"), each a Delaware corporation with its principal place of business at Chicago, Illinois, for a certificate of public convenience and necessity pursuant to section 7 of the Natural Gas Act, as amended, to authorize Applicants jointly, but each in respect to the facilities proposed to be constructed by it, to construct and operate certain facilities, hereinafter more particularly described, which, if constructed, will extend and enlarge Applicants' existing integrated natural gas transportation system. Such transportation system, operated under common management, includes a 24-inch main pipeline extending from the Panhandle field in Texas in a general northeasterly direction across portions of Oklahoma, Kansas, Nebraska, Iowa and Illinois to a point near Joliet, Illinois; segments or "loops" of pipeline, 26 inches in diameter, paralleling the aforementioned 24-inch pipeline; a 20-inch branch pipeline extending from Geneseo, Illinois, northeasterly to a point approximately 29 miles south of the Wisconsin state line; and an extension of the last-mentioned line, not now in service, complete except for railroad crossings, running approximately 29 miles to the Wisconsin line.

Natural delivers natural gas for distribution in numerous communities in Illinois, Indiana, Iowa, Nebraska and Kansas.

The facilities which Applicants seek authorization to construct and operate are described as follows:

1. *As to Texoma.* (a) The addition of four new compressor engines of 1250 h. p. each at its compressor station No. 22 in the Panhandle field, increasing the total installed capacity at said station from 4,000 h. p. to 9,000 h. p.; and also an increase in the facilities there located for removing water vapors and liquid hydrocarbons from the gas compressed, due to the increased capacity at said station.

(b) Looping the existing 24-inch main line with 26-inch pipe from a point near Gray, Oklahoma, in a southerly direction for a distance of 25.86 miles.

2. *As to Natural.* (a) The construction of certain 26-inch pipeline loops parallel to the present 24-inch pipeline where no 26-inch loops now exist, more particularly described as follows:

(i) A 26-inch loop line for a distance of 38.86 miles beginning at Station No. 2 and ending at the south header of the Cimarron River Crossing.

(ii) A 26-inch loop line 66.19 miles in length beginning at the north end of the existing 26-inch loop near Garfield, Kansas extending through Station No. 4 and ending at the existing 26-inch loop near Wilson, Kansas.

(iii) A 26-inch loop line 69.78 miles in length beginning at the north end of the existing 26-inch loop near Haddam, Kansas extending through Station No. 6 and ending at the existing 26-inch loop near Unadilla, Nebraska.

(iv) A 26-inch loop line 69.83 miles in length beginning at the east end of the existing 26-inch loop near Orient, Iowa, extending through Station No. 8 and ending at a point 34.70 miles east therefrom.

(v) Construct two 20-inch lines with a span distance of 1.38 miles across the Des Moines River and flood valley at the west end of the existing 26-inch loop near Tracy, Iowa.

(vi) A 26-inch loop line 40.44 miles in length beginning at the east end of the existing 26-inch loop near Ardon, Iowa, and ending at a point near Cramp-ton, Illinois.

(vii) A 24-inch loop line 52.27 miles in length beginning at a point near La-Salle, Illinois and ending at the Joliet Regulator Station.

(viii) A 2-inch lateral line, approximately 6.75 miles in length, extending from the pipeline system at a convenient point north of the City of Creston, Iowa, to the vicinity of its city limits.

(ix) A 2-inch lateral line, approximately 3.2 miles in length, extending from the pipeline system at a convenient point north of the City of Washington, Iowa, to the vicinity of its city limits.

(x) A 2-inch lateral line, approximately 10 miles in length, extending from the pipeline system at a convenient point south of the City of Mendota, Illinois, to the vicinity of its city limits.

(xi) The completion, by constructing two railroad crossings, of a 19.75 mile section of the 20-inch pipeline, not now used, from the north header of Coon Creek near Garden Prairie, Illinois to Main Line Gate Valve No. 9 near Greenwood, Illinois.

(xii) A lateral line consisting of 18.50 miles of 16-inch pipe, extending from the

said 20-inch pipeline at Main Line Gate Valve No. 9 near Greenwood, Illinois easterly to a new point of delivery near Volo, Illinois from which gas will be taken into the local distribution system of Public Service Company of Northern Illinois, thence the lateral will be extended easterly, by constructing 7.63 miles of 12-inch pipe, to a point of delivery near Grays Lake, Illinois into the local distribution system of North Shore Gas Company.

(xiii) Together with all meter settings, pressure regulating devices and other appurtenances necessary or convenient for the utilization of said facilities.

The application recites that the present capacity of the system, approximately 268,000 Mcf per day, will be increased by the construction of the proposed facilities by 81,000 Mcf per day to a total of 349,000 Mcf per day.

Natural proposes to deliver additional natural gas for distribution in communities now served by it and to devote a portion of the increased capacity of the pipeline system attained by the construction of the added facilities, to the delivery of gas to customers for distribution in communities not now presently served, by it, to-wit:

At a session of the Interstate Commerce Commission, Division 3, held at its office in Washington, D. C., on the 21st day of July, A. D. 1945.

It appearing, that a slide on the river bank at Natchez, Mississippi, is interfering with operation of the Natchez-Vidalia Car Ferry and the Missouri Pacific Railroad Company (Guy A. All rules, regulations, and practices of said carriers with respect to car service are hereby suspended and superseded insofar only as conflicting with the directions hereby made.

(c) *Division of rates.* In executing the orders and directions of the Commission provided for in this order the common carriers involved shall proceed even though no contracts, agreements, or arrangements now exist between them with reference to the divisions of the rates of transportation applicable to said traffic; such divisions shall be, during the time this order remains in force, voluntarily agreed upon by and between said carriers; or upon failure of the carriers to so agree, said divisions shall be hereafter fixed by the Commission in accordance with pertinent authority conferred upon it by the Interstate Commerce Act.

(d) *Effective date.* This order shall become effective at 11:00 a. m., July 21, 1945.

6. Withdrawal of a carrier from participation in the plan for joint action hereby approved shall not be made without prior approval of the Office of Defense Transportation.

7. The provisions of this order shall be binding upon any successor in interest to any carrier named in this order. Upon a transfer of any operation involved in this order, the successor in interest and the other carriers named in this order forthwith shall notify, in writing, the Office of Defense Transportation of the transfer and, unless and until otherwise ordered, the successor in interest shall perform the functions of his predecessor in accordance with the provisions of this order.

8. The plan for joint action hereby approved and all contractual arrangements made by the carriers to effectuate the plan shall not continue in operation beyond the effective period of this order.
